Commissioner for Patents  
PO Box 1450  
Alexandria, VA 22313-1450

Sir:

In order to comply with 37 CFR 1.97 and 1.98, attached hereto is a copy of form PTO/SB/08a/b and copies of citations no. 21-54 listed thereon. Each of citations no. 1-20 listed on the form PTO/SB/08a/b is a U.S. patent or U.S. patent application publication. The Patent and Trademark Office has waived the requirement under 37 CFR 1.98(a)(2)(i) for submitting a copy of each cited U.S. patent and each cited U.S. patent application publication for all U.S. national patent applications filed after June 30, 2003. Official Gazette, August 5, 2003. The subject application was filed on October 16, 2003. Copies of citations no. 1-20 on the accompanying PTO/SB/08a/b are therefore not required and are not enclosed, accordingly.

In accordance with MPEP Sections 609 and 707.05(b), it is requested that each document cited (including any cited in applicant's specification which is not repeated on the attached form PTO/SB/08a/b) be given thorough consideration and that it be cited of record in the prosecution history of the present application by initialing form PTO/SB/08a/b next to the document. Such initialing is requested even if the Examiner does not consider a cited document to be sufficiently pertinent to use in a rejection, or otherwise does not consider it to be prior art for any reason, or even if the Examiner does not believe that the guidelines for citation have been

fully complied with. This is requested so that each document becomes listed on the face of the patent issuing on the present application.

Certain documents cited on form PTO/SB/08a/b are not in the English language. Each such document not in the English language is accompanied by an English-language abstract. Thus, the requirement for a concise explanation of the relevance of each document not in the English language is believed to be satisfied. MPEP 609 III(A)(3).

This submission is filed before a first action on the merits has been mailed.

The present Information Disclosure Statement is being submitted in compliance with 37 CFR 1.56, but the citation of such document is not to be construed as an admission that such document is necessarily relevant or prior art. No representation is intended that the cited documents represent the results of a complete search, and it is anticipated that the Examiner, in the normal course of examination, will make an independent search and will determine the best prior art consistent with 37 CFR 1.104(a) and in the course of each search, will review for relevance every document cited on the attached form even if not initialed.

It is believed that no fee is due. However, if the Commissioner determines that a fee is due, the Commissioner is hereby authorized to charge Deposit Account No. 04-0100 for any deficiency.

Early and favorable consideration is earnestly solicited.

Respectfully submitted,

Mitchell Bernstein, Ph.D.
